**Subject:** Re: City of Bayswater Candidates: commitments to Bayswater and Meltham town centres.

Hi Linda

Comments as below as per your questionnaire for Candidates

The questions are as follows;

**1. Are you or have you been a member of a political party; represented a political party at an election; or worked for a political party?**

I was asked personally by Ian Britza to help with his last election campaign for the seat of Morley, At the time I was a member of the Liberal Party. However I strongly believe that Councils should be apolitical and represent the needs of all of the Community in a fair and balance manner and I have mentioned this position in my flyers.

**2. What is your vision for the future of the Bayswater Town Centre and Train Station?**

As mentioned at the Bayswater Collective meeting - I am standing for the North ward, I have a strong personal belief in creating better and stronger Communities with a view to future needs not just the short term, Any redevelopment proposals would be considered with those factors as a high priority.

**3. What is your vision for the future of the Meltham Station Precinct?**

Creating vibrant and successful redevelopments should be considered throughout the City of Bayswater. Meltham precinct will be one of many redevelopments undertaken before the 2030 strategy is implemented in full. Opportunities to revitalise areas don't happen very often and require community consultation, a concise vision and thought to the future needs of the area.

**4. What actions will you personally take to generate investment in the Bayswater Town Centre and the Meltham precinct to create vibrant, connected, pedestrian friendly and economically viable employment hubs?**

My area of direct personal responsibility won't be BTC. Although I had a strong background in business vibrancy as a past President of CEBA. Business group consultation and rebuilding of the Trader Advisory Group is high on my agenda.

**5. What actions will you take to harness and coordinate the resources of the state government agencies in supporting the revitalisation of Bayswater and Meltham to integrate urban planning with transport planning?**

However I also think a bigger picture has to be implemented, The City of Bayswater in general in under utilised and not recognised for it's diversity of business types, it's proximity to the airport and improved highway and it's closeness to the CBD. Revitalising the Bayswater industrial area in a way that benefits the whole of the City is something I am planning many of these ideas require a strong link to State government agencies.

regards  
Mark Whitehouse
