My Vision for Bayswater and Meltham Train Stations:

I love our local area; I value our gardens, parks, heritage and vibrant community. As an environmental and energy lawyer, I studied at the London School of Economics before my fiancé and I moved into our heritage home on Coode Street. Our two shelter dogs, Muddle and Hobbes, absolutely love the dog-friendly parks nearby.

I want to see vibrant town centres in both Bayswater and Meltham. I also think we should ensure that development has sufficient community consultation, looks to the long term and balances a range of factors, such as density, site-specific planning, strong business communities, heritage and a range of housing options, from apartments, to town houses and public housing.

If elected, I will use all the avenues available to me on Council to represent locals and ensure there is extensive local, consultation on these issues.

Kind Regards

Lorna Clarke
